Applications of Ozone Air Cleaner

ES-POZ 3500

● Hotel / Hospital Room Odor Removal

It reduces the cleanup time for a room in less than 10 to 20 minutes giving a fresh new smelling odor free room. Service is faster for the customers and odour free room is available. Disinfect the air and surfaces, reducing the risk of bacterial, viral and other infections can be processed through the use of ozone air cleaner. Room cancellation can be mostly avoided through effective use of ozone.

● Remove or Control Household Odors:

Powerful and effective eliminator of smoke and odors. Ozone removes frequently the sources of household odors. It provides a much healthier home, atmosphere and environment by disinfecting and purifying with ozone

● Cigarette & Cigar Smoke Removal / Elimination

OZONE removes the irritation caused by phenol gasses, by oxidizing them. phenol gasses are the unseen part of tobacco smoke that causes such distress to one's eyes and create the bad odors. This unit is proven to be invaluable for restaurant, bar, or pool hall owners. Ozone Air Cleaner ES-POZ 3500 work better than "smoke eaters", Air Filter or Ionizer for eliminating smoke odors & smoke.

● Mold Decontamination - Control & Removal

Many harmful types of mold & fungus are around the world. They can be grow in high-cellulose material, such as dry wall, wall papers, wood straw, hay, wet leaves, fiber-boards, some ceiling tiles, and more. This unsafe mold grows in medium to high humidity 55% +. This type of mold can causes respiratory problems, even when dry.

● Vehicle Restoration companies / USES

Using Ozone Air Cleaner, trucks, busses, automobiles, vans, and work vehicles are being clean & deodorized by professionals all around the country. Ozone is giving helpful use in auto sales and restorations. Vehicles smell fresh and clean with Ozone Shock Treatments.

● Boat / Ship / Cruise line Odor

Boats are having strong fish odors mold, bacterial, and other odors. Ozone is exceptional process for eradicating and controlling these odors.

● Fire Restoration Companies

Fire and flood damage odors are difficult to remove. Shock treating with high levels of ozone will eliminate the odor and let the room to be habitable.

● Pet and Animal odors, Kennels

The offensive pet odours can be illuminated using "Shock Treatments". It creates fresh and better environment for pets, their owners, Hospitals, and Kennels. (Ozone Shock Treatments are strictly prohibited to do with pets or people in the room)

● Pest Control

Ozone helps to remove their odors and keeps insects and vermins from returning. For an example, a cockroach finds some food by the sense of smell. An Ozone Shock Treatment can destroy the odors in the food location and also in the cockroach's home. It is known that cockroaches will not be able to leave their home if they cannot smell their way back.

Advantages of Ozone Air Cleaner

Area of Coverage :

- 1 x unit per 250² foot operating for 5-10 minutes
- 1 x unit per 750² foot operating for 15 minutes
- 1 x unit per 1500² foot operating for 30 minutes

Portable Ozone Air Cleaner PZ3500 is designed to remove bad odours and Airborne Pathogens in a closed area. This unit is Highly Effective / Heavy Duty unit for non occupant areas. When the unit is working in the closed room NO occupants be there in the room.

For occupant areas Ozonators, please contact us.

Features:

- Heavy duty stainless steel construction to last life long
- Lifelong Ozone plate works up to 6000 hrs
- Low power consumption
- High Ozone output
- Filter with high flow blowing fan

Advantages

- Eliminating smells and killing mold, viruses, bacteria and other unwanted organic materials
- No chemicals are used or leftovers
- Long hours of cleaning is not required
- No physical labor at all

Why we use ES-POZ-3500?

- Powerful industrial strength Ozone Air Cleaner
- Use for serious pollutant / removal / smoke / odors
- Produce up to 3500 mg/hr
- Utilizing the most advanced Corona Discharge Technology
- Effective and economical purification and sterilization
- Constructed with stainless steels, convenient and durable
- High flow blowing fan (CFM: 85)

Specification of Ozone Air Cleaner:

• Model Name	: ES-POZ-3500
• Technology	: Corona Discharge (Ozone Plate)
• Ozone Output	: 3,500 mg/hr
• Gas Resource	: Ambient Air
• Power Source	: AC220-240V (cable included)
• Power Consumption	: about 50W
• Air Fan Output	: 85CFM
• Case	: Stainless Steel
• Dimension	: 280mm X 180mm X 140mm
• Net Weight	: 3.5 kg (7.7lb)

Note: Read the User Instruction Manual before the application.

Indoor Air Purification Solutions

Home & Office Air Purifiers

- Economic Portable Air Purifiers
- Portable Ozone De-Odourizers
- Ceiling Mounted Air Purifiers
- Duct Mounted Air Purifiers
- Hospital Air Purifiers
